FOREWORD

MINISTER OF HIGHER EDUCATION, SCIENCE, AND TECHNOLOGY REPUBLIC OF INDONESIA

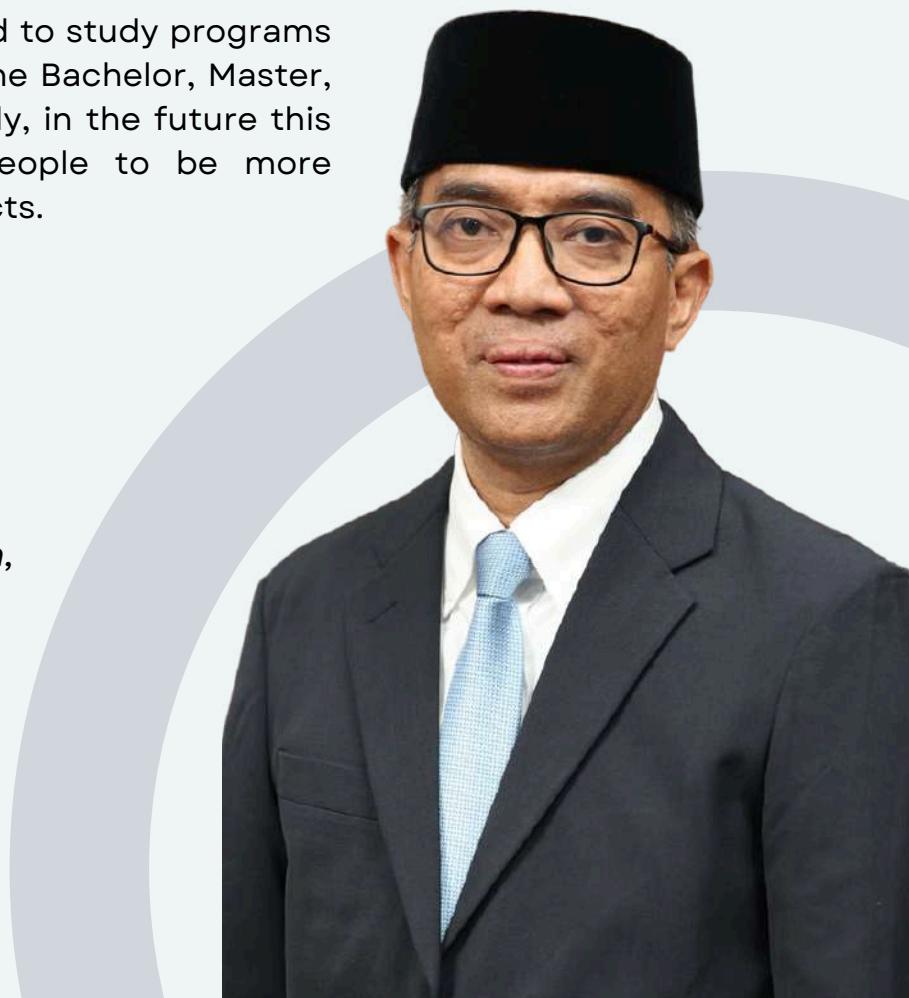

Higher education is a very effective vehicle for elevating the dignity of a nation, because it will bring illumination with weighty knowledge so that it can accelerate the goal of a country to realize a just and prosperous society. Japan, for example, through the Meiji Restoration, is a nation from the Far East that can compete with western countries in economic and technological progress thanks to its higher education. Indonesia, as a representative of Asia and the Global South, also needs to do the same, not only for Indonesia but also for the world.

Through Indonesia's leadership in the Non-Aligned Movement (NAM) in 1992, Indonesia continues to strive to work together with fellow developing countries, especially in the field of higher education. The Non-Aligned Movement (NAM) inspired the establishment of the Beasiswa Kemitraan Negara Berkembang (KNB) scholarship in 2006. The scholarship is a form of contribution from the Government of the Republic of Indonesia in the development of human capital among the countries in the Global South. To date, the KNB scholarship has been awarded to 2.048 international students from 106 countries.

These awardees were admitted to study programs of various scientific fields at the Bachelor, Master, and Doctorate levels. Hopefully, in the future this scholarships will influence people to be more enthusiast in Educational aspects.

Science, and Technology*

BRIEF SCHOLARSHIP

Kemitraan Negara Berkembang Scholarship, popularly known as KNB Scholarship, is a financial assistance offered by the Indonesian Government to prospective international students coming from developing countries to pursue their degree (Bachelor, Master or Doctorate Degree) at one of the universities in Indonesia. The scholarship was conceived in the 10th Conference of Heads of States of Non-Aligned Movement (NAM) countries, 1st-6th September 1992. The Government of Republic of Indonesia began to offer the scholarship to potential students from NAM member countries in the following year.

The regional exclusiveness of the scholarship was revoked in 2002 since it had developed global interest. It was then the scholarship was officially renamed as Kemitraan Negara Berkembang Scholarship (KNB) and the recipients were no longer limited to NAM member countries. To date, the scholarship has also been offered to other developing countries in Asia, Pacific, South America, Africa, and Eastern Europe. Eventually, the scholarship is expected to build the people-to-people relations between Indonesia and the recipient countries. It aims at nurturing their future leaders.

KNB offers an experience of studying in top universities in Indonesia and at the same living in one of the world's most diverse and vibrant society. By getting the scholarship, students will experience quality postgraduate programs managed by the 34 (thirty-four) host university.
